

***SURE CLEAN III
PORTABLE
DECON SHOWER***

Sure Clean III is a rapid deployment, portable modular decontamination shower systems. Its rugged schedule 80 PVC tubular frames is easily assembled in minutes by a single Operator. Modular design allows it to be combined with other sure clean frame accessories to form a multitude of versatile configurations. Sure Clean III's reinforced polyethylene or optional *Surelite* fabric canopy resists abrasion and heavy use for years of dependable service. Two-door design allows Sure Clean III units to be used for walk through multi-zone service. Sure Clean III's spacious interior is ideal for level "A" gross decon. An oversized reinforced vinyl sump provides ample capacity for effluent containment. Sure Clean III units come equipped with high strength polyethylene elevation grids, full body shower booms with 3 stainless steel nozzles each, quick disconnect outlets for hand shower or brush utilization and three way ball valves for solution or fresh water line selection. Supply connections are accomplished by way of standard 3/4" female garden hose swivel connectors. Sure Clean III shower systems disassemble into conveniently portable component parts that are stored in heavy-duty reinforced vinyl bags.
